

CAC - Lucio Buffone

Our regional conference is the opportunity for members to set the policy direction for the Party in London and to hold the REC members to account.

We mustn't take our current strength in London for granted. If we strengthen our democratic structures and accountability we can continue to deliver policies that are popular and that will greatly improve the lives of the Londoners we seek to represent.

Since being on the board I have consistently voted to hold an annual conference, so that we are in line with the Labour Party rulebook. If elected onto CAC I will continue to work in a non factional way, with CLPs, The Unions and the Socialist Societies to set a conference agenda that is fair, open and accessible.

Please support me and also vote for Linda Perks and Miriam Mirwitch for a CAC that will represent the diverse views across our membership.
